EDUCATION

Master's Degree in Digital Graphic Design

UNIR — Universidad Internacional de La Rioja

2018 – 2019

- Redesigned the PeoplePass transaction app using a User-Centered Design (UCD) process, from user research to usability testing with interactive prototypes.

Graphic Design

IUDC - Universitaria de Colombia

2013 - 2016

- Developed a visual campaign and an interactive website to promote healthy eating, addressing a relevant social issue in Colombia.

TECHNICAL SKILLS

Research: Data and heatmap analysis, competitive benchmarking, survey design and evaluation, and detailed reports with insights and strategic recommendations.

Design: User interface (UI) design, presentation design, wireframing, design systems, information architecture, mockups, and user-centered design.

Prototyping: Interactive prototypes, interface animation, and usability testing to validate the user experience.

Collaboration: Teamwork, clear and direct communication with colleagues and clients, and effective presentation of design proposals and solutions.

Front-End Development: HTML, CSS, CSS frameworks, and content management systems (CMS) to build web interfaces.

WORK EXPERIENCE

UX/UI Developer • RemoteLatinos

November 2025 – Present · Part-time Contractor

• Design and improve platform features through sprints and iterative design processes.
• Define user flows covering primary journeys, alternative paths, and edge cases.
• Design interfaces and document interaction behavior to support implementation by the development team.

UX/UI Designer • Secretaría de Hacienda de Bogotá

September 2025 – Present · Professional Services Contract (OPS)

• Design digital services for taxpayers and internal teams, following institutional design standards.
• Define user flows and interfaces for appointment scheduling, payments, tax procedures, and administrative tools.
• Create components and interface documentation for the institutional design system.

Product Designer • Niibu

December 2025 – August 2026 · Contractor

• Designed the UX/UI for a mobile platform connecting content creators, service providers, and customers.
• Defined user flows for registration, profiles, posts, bookings, calendars, and AI-powered experiences.
• Built a design system with reusable components, variants, and support for light and dark modes.

UX/UI Designer • Pontificia Universidad Javeriana

October 2024 – December 2025 · Professional Services Contract (OPS)

• Redesigned undergraduate and postgraduate program pages around user needs.
• Created a UI kit supporting light and dark modes.
• Conducted user research and usability testing to validate navigation improvements.

UX/UI Lead / Mid-Level UX Researcher • Tres Astronautas

October 2024 – May 2025 · Contractor

• Coordinated the design team, planned deliveries, and resolved blockers while supporting onboarding, kick-off, and handoff.
• Designed user flows, interfaces, and a design system for Zigi Backoffice, using reusable components and design tokens for audience and challenge management.
• Designed the UX/UI for Tip Tap, a payment terminal application featuring biometric authentication and QR code payments.
• Conducted usability testing and collaborated with developers in two-week sprints to refine solutions.
